

Services by Linde Hydraulics.

Rebuild (Modification) & Repair Possibilities for complete Hydraulic Units.

In addition to the regular terms of Series, Spares & Replacements Parts, Linde Hydraulics offers additional services for you in usual high quality:

Modification & Conversions of units you have on stock

- Free of charge inspection and quote which article can be rebuilt into a New or up-to-date version
- Consideration of customer requirements or short-term purchase orders
- If you accept Linde Hydraulics offer, your units will be preferred and quicker rebuilt at Linde Hydraulics After Sales
- Your benefit: faster delivery time
- Better spare part prices
- Return of exchanged components for your own requirements

Testing of units which you have still on stock (your slow movers)

- Testing and controlling of slow movers in our manufacturing factory
- Change of wear and seal parts
- Reconfiguration of pressure and valve settings

Repairs

- Restoration or Repair of defective units with an individual cost offer in order you receive a product which technical specification can compare to a new unit
- Quicker process than new or Exchange/Service order (better delivery time) at Linde Hydraulics
- If we have the equal unit in stock Linde Hydraulics will send it and you only pay the repair price
- Your benefit: cost-efficient & quick availability

Warranty extension

- We give economic conditions
- We offer individually agreements
